This city, flanked by three large volcanoes, is proud of its heritage, its perpetually blue sky and bright sunshine, its green countryside, its grand mansions of volcanic rock, alpaca wool articles, and good food.

Colca Canyon, the beauty of the Colca Valley and canyon lie in the spectacular terraces that allow crops to grow on the steep mountain slopes, in the impressive Andean-Baroque and Renaissance-style churches in lost little towns, its quiet camelids, thermal springs that offer rejuvenating baths, condors in their natural habitat, and Mt. Mismi (5597 masl), the source of the Amazon River. All of this is wrapped in majestic natural surroundings that are interwoven with a culture that remains alive without losing its deepest and most valuable identity traits.
